

**JENAFY**

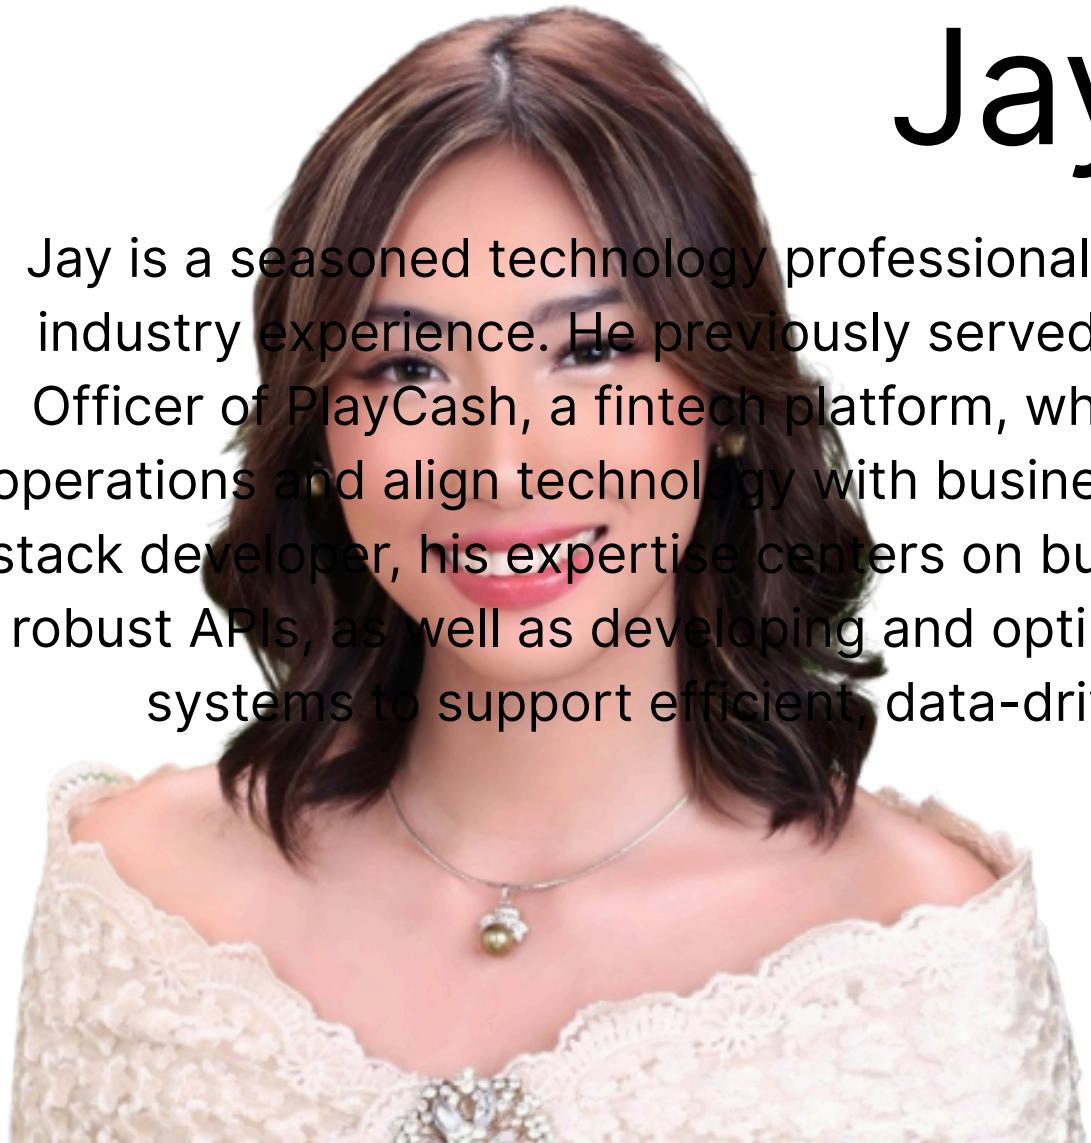

Your development partner  
in the digital world.

# TEAM

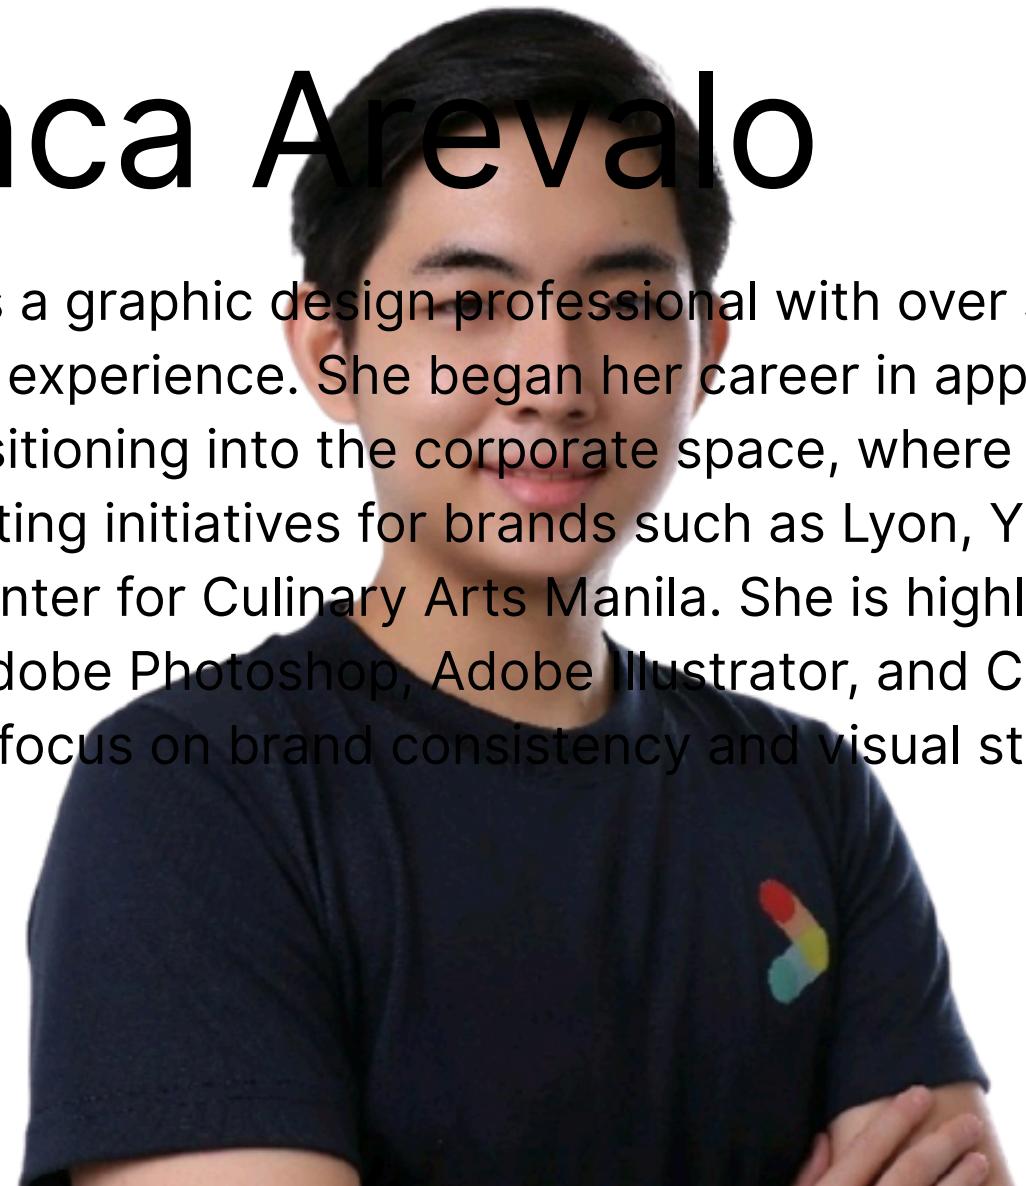

## Jay Lee

Jay is a seasoned technology professional with seven years of industry experience. He previously served as Chief Operating Officer of PlayCash, a fintech platform, where he helped scale operations and align technology with business strategy. As a full-stack developer, his expertise centers on building and integrating robust APIs, as well as developing and optimizing CRM and ERP systems to support efficient, data-driven operations.

## Bianca Arevalo

Bianca is a graphic design professional with over six years of industry experience. She began her career in apparel design before transitioning into the corporate space, where she led design and marketing initiatives for brands such as Lyon, Yuki, Cravings, and the Center for Culinary Arts Manila. She is highly proficient in Figma, Adobe Photoshop, Adobe Illustrator, and Canva, with a strong focus on brand consistency and visual storytelling.
